SUMMARY

Front End Developer with 3 years of experience in JavaScript, React.js, and React Native, specializing in mobile and web development. Proficient in NoSQL databases (MongoDB) and experienced in implementing CI/CD practices. Known for strong leadership and collaboration skills with a focus on delivering scalable and maintainable solutions. Eager to expand knowledge in cloud technologies and contribute to innovative projects in a dynamic development environment.

SKILLS

- **Engineering:** Coding, Frontend & UI/UX, Mobile, RESTful integration, Responsiveness, Code Standards, Documentation, Code Review
- **Technologies:** JavaScript, TypeScript, HTML5/CSS3, React.js, React Native, Redux, Node.js, ExpressJS, Next.js, Tailwind CSS, Git, MongoDB, MySQL, SQL Server, SonarQube
- **Team Communication:** Team Communication, Empathy, Problem-Solving, Strategic Planning & Execution, Team Leadership, Agile, Adaptability, Motivation

RELEVANT EXPERIENCE

React.js/React Native Developer, Softtek

Sep 2022 - Present

- Lead a team of 4 developers in creating and maintaining mobile applications, enhancing user experience through the use of React Native and React.js.
- Collaborate closely with Product Owners and Tech Leads to introduce new features and maintaining 99.9% uptime for the mobile applications
- Conduct comprehensive code reviews to maintain high standards of code quality and consistency.
- Streamline deployment processes using Bitrise, facilitating stable releases and continuous integration.
- Mentor new team members, providing knowledge transfer and ensuring smooth onboarding.
- Designed and implemented solutions tailored to the airline industry, ensuring compliance with regulatory requirements and enhancing operational efficiency.

Immersive React-Native Training Program, Quintrix Solutions

Mar 2022 - Jul 2022

- Developed mobile applications using React Native, TypeScript, and JavaScript, implementing advanced features like React Navigation, Hooks, and Context to enhance user experience.
- Implemented a scalable Node.js server with Express.js on AWS EC2, utilizing DynamoDB and S3 Bucket for efficient data management, resulting in a 30% faster data retrieval time.
- Worked in a team of 4 developers, using Git for version control and project management, ensuring smooth collaboration and consistent code integration.
- Participated in an agile operating model, contributing to daily scrum reports, sprint planning, and retrospectives to optimize team productivity and project delivery.

React Native Developer Jr, Steta&Malo

Aug 2020 - May 2021

- Developed and optimized UI screens for responsiveness across various mobile devices, enhancing the user experience.
- Collaborated with UX/UI designers and backend developers to integrate efficient designs and data flows.

Intern Software Engineer, CINVESTAV

Nov 2018 - Dec 2019

- Created and curated datasets for machine learning projects, focusing on high-quality, annotated data for neural network training.
- Developed neural networks using Keras and Python for pattern recognition, achieving high accuracy in controlled tests.
- Applied dynamic programming techniques in C++ and Python to solve complex problems, contributing to research on algorithmic efficiency.

EDUCATION

- Bachelor of Engineering in Information Technology - Polytechnic University of Victoria, Mexico 2017-2020
